CAREER FOCUS

Passionate about software engineering, I aim to create impactful and innovative solutions. I enjoy exploring both front-end and back-end development and constantly strive to improve my skills in other areas in my field. I value collaboration, tackling problems, and growing together as a team.

EDUCATION

Institute of Advanced Technology

Certificate in International Certificate in Digital Literacy - Nairobi, Kenya 2019

EduLink International College

Advanced Diploma in Software Engineering - Nairobi, Kenya 2023

TECHNICAL SKILLS

Languages & Frameworks - Java, C/C++, HTML5/CSS3, JavaScript/JQuery, TypeScript, ReactJS, NodeJS, ExpressJS, MongoDB, Tailwind CSS, NextJS, MySQL, PHP, Android, Gen AI (Gemini Studio, \Anthropic, OpenAI), Kotlin, Laravel, React Native, MySQL, MariaDB, Linux (Ubuntu, CentOS)

Developer Tools - VS Code, Android Studio, PHPStorm, Postman, Apache NetBeans, MySQL Workbench, Git, Github, Azure DevOps

EXPERIENCE

ICT Authority (ICTA) — E-Government Department 2024

Junior Software Developer - Nairobi, Kenya

- Assisted in monitoring and maintaining security and performance of enterprise database systems
- Developed database documentation including data standards, procedures, and data dictionary definitions
- Supported database management system upgrades and patch update cycles
- Provided technical support and troubleshooting for database-related issues
- Collaborated across departments to deliver technical solutions aligned with government ICT requirements

PROJECTS

Advanced E-Commerce Website *PHP, Laravel, MySQL, JavaScript, HTML5, CSS3*

Full-stack shopping platform with separate admin and customer portals. Customers can browse products, manage a cart, and checkout. Admins handle the catalogue, orders, and inventory via a PHPMyAdmin backend.

NGO Client Website *React, JavaScript, HTML5, CSS3*

Frontend website built for a non-profit client. Includes a homepage, about page, media section with social links and YouTube interviews, and a contact page designed to reflect the organization's mission.

Jumble Word Game — Android App *Java, Kotlin, Android Studio, SQLite*

Android vocabulary game where players unscramble words across Easy, Medium, and Hard difficulty modes. Features a timer, high score tracking, user accounts, and in-game instructions.

Modern Web Portfolio *React, Laravel, PHP, MySQL, CSS3*

My first Laravel and React project. A responsive portfolio site with a full user management system with CRUD operations, login and logout functionality. Built to understand how React and Laravel work together end-to-end.
